Objective

Seeking an opportunity to work as a Software Engineer / Programmer with a reputed organization where my skills and knowledge can be utilized.

Projects

Online Ticket Booking Site

Final year academic project

We created a website that enable user to buy tickets online. Initially, only bus ticket we available later on we added train tickets. We used Asp.Net as Frontend and My-SQL as backend.

Personal Portfolio Site

<https://sahukrishna.github.io>

Updated at regular interval the site serves as a portfolio showcasing various projects and works created over time.

Minima Bootstrap Theme

<https://sahukrishna.github.io/minima>

Minima is a simple theme created and makes use of bootstrap framework. Currently it is a work in progress more features will be added in future.
